THE DREAM LIVES.

The KISS fantasy looms ever larger. Far more real than life itself. The thundering rock-and-roll vibration intensifies, until it reaches that unbearable moment when it explodes into smoke, fire, and color—and the dream lives.

How to apply your KISS "IRON-ON" transfer:

NOTE: For best results apply to permanent press materials containing at least 50% polyester.

1) Slip T-shirt over ironing board end. Place protective, non-porous, paper under the design area. Smooth out all wrinkles.
2) Place another piece of plain notebook or bond typing paper on top of the design to protect the iron.
3) Position iron-on, illustration side down, on material. Pin transfer along edges.
4) Set iron for cotton. Allow dry iron to heat up. Iron with firm, even pressure for one minute.
5) Allow fabric to cool for 60 seconds before removing pattern. Do not iron directly on design after paper is removed.
6) No special laundering required. Do not use chlorine bleach.
